

# Bring out the best in your network

## Bell Professional services

Keep your infrastructure operating at peak performance with 24/7 network technical support from Bell's certified professional services team. With our experts taking care of your back-end network installation and maintenance, you're free to focus on your core business.

Our professional services team delivers comprehensive on-site, online and remote network technical support services including conduit and cabling services, installation and maintenance.

### Benefits of Bell's Professional Services

- **Scale with ease:** Get an efficient and rapid response whenever you need physical or visual assistance, plus access to the leading-edge technologies and support resources for fast resolution.
- **Efficiency and cost-effectiveness:** Improve your network efficiency and minimize downtime by leveraging our team's insights and expertise.
- **Support for business growth:** Differentiate your business and grow your market share by offering our one-stop professional services to your customers.
- **One point of contact:** Get a single point of contact for all onsite, telephone and online technical support.

### Professional Services from Bell

Our professional services include:

- **Conduit and cabling services** – we sell and install conduits and cables including fibre cabling systems, copper cabling systems, and racks and enclosures.
- **Installation services** – we install equipment from the leading telecommunications hardware manufacturers, including LAN-based office equipment.
- **Maintenance services** – for ongoing management of network installations, moves, adds, changes and more.

## About Bell Wholesale

Bell Wholesale provides industry-leading broadband, IP and voice wholesale products and services across Canada and at key points in the U.S. and Europe – helping you grow your businesses and meet the needs of your customers.

As Canada's largest communications company, Bell has more than 270,000 kilometres of fibre and 161 Points of Presence (PoP) across the country, the most in Canada. Our convenient “meet me” points in the U.S. and Europe provide seamless access to the largest network in Canada.

With an extensive team of professional services experts and 24/7 help desk availability, Bell provides high-quality support to interexchange carriers, local exchange carriers, wireless service providers, resellers, Internet service providers, over-the-top providers, system integrators, telcos and cablecos.
