

# Increase revenue and deliver a feature-rich voice solution

## Wholesale Hosted PBX from Bell

As a service provider, you are faced with the ongoing challenge to deliver scalable and flexible communication solutions to market while cost-effectively expanding your product portfolio and maximizing revenue opportunities.

Wholesale Hosted PBX service from Bell delivers a fully managed, robust and reliable hosted-PBX platform. Combining enterprise-class PBX services, unified communications and business application integration, Bell's service offers a complete

communications solutions to meet the needs of your business customers and their end users while growing your market and minimizing operational costs.

### Service overview

Wholesale Hosted PBX provides advanced voice and video capabilities offering your business customers and their users the flexibility to work anywhere, anytime on their preferred communications device whether it's a mobile, PC or tablet.

With its powerful capabilities and ease of use, Wholesale Hosted PBX empowers service providers to increase revenue, strengthen their brand and offer a more cost-effective solution to their business users. It eliminates the cost of owning and servicing a PBX system as well as a dedicated data connection by using a private and dedicated cloud-based infrastructure.

## Features

Three convenient packages are available, allowing users to easily scale up or down according to their specific needs.
